CONFIRMED: Psychiatric Manual DSM-IV-TR Labels free Thinkers, non conformers as Mentally Ill

According to the Psychiatric Manual,

**Free Thinkers
Constitutionalists
Oath Keepers
Non conformists
Peaceful activists
Peaceful Resistors
Free Men/Women
civil disobedience
Those that question Authority
and Highly creative artists Equal this...**

Author: Brian D. Hill

It is now confirmed by USWGO News that the DSM-IV-TR Manual labels free thinkers, non conformers, civil disobedient advocates, those that question authority, and people considered hostile toward the government (aka Oath keepers and local militias) as mentally ill with the illness titled “oppositional defiant disorder” or ODD.

It was reported on October 8 2010 from [OffTheGrid News](#) that anybody who is disobedient, defiant, a free thinker, or even considered hostile toward authority was to be labeled by psychiatrists as ‘Mentally Ill’.

Now I have got my hands on a ebook version of the year 2000 version of the ‘Diagnostic and Statistical Manual of Mental Disorders DSM-IV-TR Fourth Edition (Text Revision) By the American Psychiatric Association version DSM-TV-TR (The non TR Version was said to

be older and so I got the newer one which had the information that Off The Grid News warned about).

Now as I search up the keywords “oppositional defiant disorder” on adobe reader I found exactly what Off The Grid News was talking about. So it is now Confirmed basically that anyone who disobeys authority or even questions authority is now considered mentally ill and can be thrown in a prison-like mental institution under tax payers dollars.

[3 Pages of the eBook of ‘Diagnostic and Statistical Manual of Mental Disorders DSM-IV-TR Fourth Edition’](#)

So lets just get to the basics of what this is talking about for those that don’t exactly understand what this is saying:

So now according to the ebook it states that:

[REDACTED COPYRIGHTED MATERIAL]

So in other words if a student gives out 9/11 truth fliers and a teacher says “You don’t have a Constitutional right to give out fliers good buddy” then non compliance is considered hostile or disobedient. Also if I am with the Oath Keepers that refuse to obey unlawful orders from authorities then that also fits them and me as disruptive and hostile towards authority. If the psychiatrists use the ODD illness on regular adults then I am sure many disgruntled tax paying Americans and those that no longer consent to be governed would be forcefully medicated, forced to accept being a slave to society,

or stay in a mental prison institution complex for the rest of their days. That seems to be where this manual is getting at according to the fact I was able to obtain the full copy of the psychiatric manual.

[REDACTED COPYRIGHTED MATERIAL]

So in other words it is okay to compromise with those that commit treason to this country and those that disobey their Oath to the Constitution. The day we start accepting and compromising with those that wish to take away our freedoms then that is the path to start losing all of our freedoms and rights for good. Also this manual speaks against any anti-social behavior so that means that if your not in a organized religion, not being social enough in society, and may have viewpoints that are unpopular then you will also be labeled as having ODD.

[REDACTED COPYRIGHTED MATERIAL]

So if I was a active duty soldier and was told to confiscate peoples guns, assassinate American citizens, and start silencing dissent and I refuse those orders plus argue with the commander in chief regarding the illegal orders then that makes me mentally ill and the Unconstitutional treasonous monsters the hero.

So it is now confirmed that psychiatrists will start targeting brave people like George Washington, anti Federal Reserve activists, activists, and even those against tyranny with mental illnesses such as “oppositional defiant disorder” as we head into more of a Military Dictatorship where freedom does not exist and all functions of society must function like a cold hard machine and any who feel the need to be away from this machine society will not be tolerated by the Police State minions and will either be killed or pumped up with so much drugs that the person will feel like a zombie.

Also what are free thinkers anyways, Free thinkers are those that feel they should have the right to live the way they choose freely as long as they don't harm anybody, don't harm the persons property, and don't harm other peoples rights. A free thinker is a person that believes they should have the rights to think freely without any risk of persecution.

These are the full list of who all will be targeted by this new disorder created by the American Psychiatric Association:

1. Free Thinkers – Because they get in the way of the police state and become a obstacle to authority
2. Non conformers – Because they will cause civil disobedience which will make things harder on authorities
3. Oath Keepers – Because they will actively refuse any orders from higher ups to shoot American citizens, confiscate Americans guns when this action conflicts with the 2nd amendment, follow illegal orders aka orders that conflict with the Constitution and the laws legally passed. Oath keepers teach people to be disobedient to any authority that breaks the Constitution.
4. Highly creative artists – Because they are wasting time in the police state society and so they must also work like clockwork to be a good slave in society or risk being thrown in a mental institution.
5. Anyone that questions authority – Because the authority is god and anybody that questions authority must be a troublemaker that wishes to destabilize a society and commit acts of terrorism.

So there we have it the American Psychiatric Association is putting in their Diagnostic and Statistical Manual of Mental Disorders DSM-IV series that free thinkers, civil disobedient advocates, and Oath keepers are all mentally ill that are anti-social and may cause behavior problems in our modern society.

The Constitution is at risk again as the fascists keep finding ways to indoctrinate the youth and finding

new ways to make people conform to the new Unconstitutional ways of society. We are being incrementally prepared to accept the new treasonous Unconstitutional takeover.
